Summary

Systems-thinker holding a B.S. in Software Development (Summa Cum Laude) with a proven track record of developing highly optimized, responsive web applications and elite user interfaces utilizing React, Node.js, and modern CSS frameworks.

Skills

Technical:
Software Architecture, Scripting, Web Development, Front-end Development, HTML, CSS, React, Tailwind, User Interface, User Experience, Responsive Web Design, PHP, Node.js

Productivity:
Office 365, Advanced Excel/Sheets, Git/GitHub, Project Management, Version Control, Teamwork

Education

Bellevue University / B.S. in Software Development
NOVEMBER 2022 - JANUARY 2025 | SUMMA CUM LAUDE

Principles of Software Development, Agile, Project Management, Team Collaboration, Version Control, Database Management

Experience

Software Portfolio / Independent
PRESENT, Hilliard OH

Architected and deployed standalone interactive projects focused on web development, ranging from React, Node.js, to pure HTML/CSS. Optimized UI component rendering, managed state across application lifecycles, and ensured cross-browser responsive design compliance to elevate user engagement. Managed local development and strict deadlines under version control pipelines like Git.

Chipotle Mexican Grill / Assistant General Manager
SEPTEMBER 2020 - JANUARY 2025

Directed end-to-end operational standards, including team management, inventory auditing, and analysis of P&L metrics for a high-volume corporate business unit generating **\$11K ADS (\$4M+ annual revenue)**.

Projects

Moffat Bay Lodge / Team Project
NOVEMBER 2024, Hilliard OH

Jakarta ServerPages, JDBC, MySQL, HTML, and CSS

Engineered a responsive full-stack reservation portal utilizing Jakarta ServerPages, Java backend controllers, and MySQL. Implemented dynamic form validation and secure relational data mapping to handle concurrent booking states.

Certs.

Responsive Web Design / FreeCodeCamp
MAR 2024 | <https://www.github.com/fffade/MoffatBay>

Demonstrated mastery of responsive design principles, flexbox/grid layouts, and semantic HTML5 to build accessible user interfaces.
